PHILIPPINES  
TO BE HELD

Luzon Will Become An Absolute American Possession

## OTHER ISLANDS TO BE RULED BY SPAIN ON SUFFERANCE

Washington, Sept. 16—Special—As predicted in these dispatches yesterday the white house dinner of last evening proved a most important one. Those present were members of the cabinet and of the general peace commission, and there was a free discussion of all the issues involved in the controversy with Spain. There was less of disagreement than had been anticipated. While some of those present were in favor of the retention of the entire Philippine Archipelago, the majority regarded the plan as involving too great hazard owing to the diverse interests there. After a full discussion it was decided that the commissioners to Paris should insist upon the cession by Spain to the United States of absolute sovereignty over the island of Luzon, and that a nominal suzerainty, amounting practically to a protectorate, should be granted over the remainder of the group. Spain's authority is to be recognized in these islands, therefore, only as long as she shall administer affairs in a humane and liberal manner. If at any time she shall commit acts of oppression or cruelty the United States will have the privilege of stepping in and assuming the reins of government. The commissioners will go to Paris fully armed with all the necessary authority to act upon all mooted questions, but will have no power to alter the general scope of the settlement as outlined above.

## Reports Were Edited.

Washington, Sept. 16—Special—A new phase of the Miles-Alger controversy has been developed. It is alleged by friends of Gen. Miles that the war department has been "editing" the official reports of the commanders of our forces in Cuba and Porto Rico with the purpose of belittling the general of the army. Wherever an officer has referred to Gen. Miles the blue pencil has been run through the paragraph. It is charged that a knowledge of this fact impelled Gen. Shafter, in making his report of the Santiago campaign, to refer only incidentally to Gen. Miles' presence before the beleaguered city. If the charge is proven Secretary Alger will be placed in an uncomfortable position, even though the acts were those of his subordinates and may have been committed without his knowledge though with the expectation of pleasing him.

## No More Troops Needed.

Washington, Sept. 16—Special—The administration is now so confident in regard to the Philippines situation that it has been decided to send no more troops there at present. It has also been decided to abandon temporarily at least the plan of sending several thousand men from the Pacific coast to Honolulu to be held in reserve for use in the Philippine in case of emergency.

## Customs Receipts Large.

Washington, Sept. 16—Special—Gen. Otis telegraphed the war department today that no more troops were needed at Manila at present. The customs receipts are exceeding the expenditures. The sales of licenses for pastimes opposed to public morals has been discontinued.

## Wisconsin Troops Welcomed.

New York, Sept. 16—Special—The Wisconsin troops that arrived from Porto Rico on the Alma this morning were given a great welcome when they landed. They marched immediately to the Pennsylvania depot, where trains were awaiting them.

## Why Aguinaldo Kicks.

Washington, Sept. 16—Special—It is stated that one reason why Aguinaldo is less cordial to the Americans is that he got a bundle of our papers in which the cartoonists poke fun at his gold collar, silver whistle and lack of other apparel.

## Army Reorganization.

Washington, Sept. 16—Special—The war department will soon take up the question of mustering out a number of general officers of the volunteer army, and reorganize the corps and divisions.

TOBACCO HARVEST  
ABOUT FINISHED

## COLD WEATHER HUSTLES THE GROWERS

Better Crop This Year Than Harvested In Ninety Seven—Vernon County Sales Being Made—Out Of Town Jobbers Have Been Here Of Late.

There is very little of the '98 crop of tobacco standing in the fields at present. The cold weather of the past week has hustled in the belated tobacco so that practically speaking the crop is secure.

The harvested leaf, says the Wisconsin Tobacco Reporter, is now pretty well cured, and samples that have been gathered are showing up a very good quality of tobacco. The crop promises to come through the case much more inviting than the '97.

Information has reached us of the buying of a few crops of '98 on the poles in Vernon county, where local dealers are credited with making contracts for about 100 acres of choice selections at from six to eight cents in the bundle. Resident buyers look upon the movement as an effort to keep away outside dealers for the time being. Several out of town jobbers have been in the markets of late inspecting samples, and some sales have been effected, though no large transactions are reported.

The shipments out of storage reach about twenty carloads, 940 cases, for the week to all points from this station. Since last report 515 cases of cigarleaf were exported from New York.

The '98 crop was larger in acres but is doubtful if it yielded as many pounds of cured leaf as the present crop will do. If it were not for one or two heavy storms that swept over the tobacco section causing damage by wind and hail in quite extensive areas, the crop might have been the soundest ever harvested. A gratifying feature of the season so far is the exceptional curing weather that has prevailed.

The early fields that went into the sheds three and four weeks ago are now very nearly cured down to the stem. The extreme warm weather during the harvest brought the tobacco down very fast and assisted wonderfully in rapid curing.

The presence of sufficient moisture in the atmosphere also contributed to the result. Samples of entirely cured leaf of the new crop are being exhibited that show a remarkably fine light color, thin and of the proper texture to make good tobacco. The growers are delighted over the prospect of an unusual satisfactory cure of the new crop.

## PAPERS BEAR ON CASE

Documents Relating to Dreyfus May Precipitate a French Cabinet Crisis.

Paris, Sept. 16—[Special]—A morning paper says Sarrien has concluded his examination of the Dreyfus documents and will announce to the cabinet tomorrow his intention of handing them over to a committee competent to act. This is his first step toward the revision and may precipitate a crisis.

Paris, Sept. 16—[Special]—The minister of war is said to have admitted that it is no longer possible to maintain that he wrote the letter to Bordeaux on which he was convicted.

## CZAR'S PLAN APPROVED

HIGH SCHOOL IS  
ONCE MORE OPENLARGE ENROLLMENT MARKS  
FIRST OF THE TERM

Preparations for the Foot Ball Season Are Engaging Much Attention—Other Athletic Exercises Will Mark the Year—Improvements Made at the Building

Once more, after an unusually long vacation, the pupils of the Janesville High school are back, and are alternately wondering if they will get through the next recitation without being called on, or whether they can "stab" well enough to pass. School seems strange with so many of the old teachers gone and so many of our friends in the class of '98. High school opens up with a record-breaking enrollment, having on its books about 425 names. The senior class, while the smallest class in school, is the largest that ever attained the dignity of seniors, and is made up of eighty-five of the brightest and best pupils in the land. This promises to be the largest class ever graduated from the Janesville High school.

The prospects for a good football team are of the best. All of the line is back with the exception of Miller. Behind the line Mathews at quarter, Sutherland at full and McDonald at half are missed, but there is plenty of material on the field to fill these places. Pitcher, a last year's sub, will probably play one of the places, and Bump, Orr and Atwood are the most likely of the new men. Henry Carpenter will captain the team, and Percy Kearney will manage it. A good schedule of games has been arranged, and some very good contests will be played. Last year's team went through the entire year without one defeat, a record that this year's team will try to keep up.

The Athletic association has elected the following officers for the winter term:

President—Philip Gasford.  
Vice President—Percy Kearney.  
Secretary—Percy Wallis.  
Treasurer—Ed Jerg.

Prof. Byman will help the boys on the field this year, he having quite a good deal of experience in athletics.

A new shower bath has been placed in the basement for the use of the football team, and lockers will be placed there as soon as possible. It is also expected that the gym will be fitted up in the course of time, but that course must be one of the long variety.

The Rush Lyceum will resume its work next week, and install the following officers:

President—Allan Lovejoy.  
Secretary—Charles Cox.  
Treasurer—Levi Ross.  
Librarian—Leo Brownell.

## KILLED BY A RUNAWAY

Henry Van Seggen's Body Was Pierced by the Pole of a Wagon at Green Bay.

Green Bay, Sept. 16—[Special]—Henry Van Seggen, the fifteen year old son of H. D. Van Seggen, chairman of New Denmark, was killed by a team of runaway horses. The young fellow was standing in front of the team when suddenly the animals started to run. He endeavored to check them by pulling on the bits, but did not succeed. He did not notice a gate in front of him which was closed, and into this the frightened animals dashed. The tongue of the wagon penetrated the body of the boy. He died shortly afterwards.

## NINE WERE DROWNED

Schooner Alice Jordan Sunk In a Collision and Members of Her Crew Perish

Boston, Sept. 16—[Special]—The steamship Gloucester arrived today with seven members of the crew of the crew of the schooner, Alice Jordan, of Gloucester. The captain reports that his vessel sunk the Jordan in collision early this morning. Nine of the Jordan's crew were drowned.

## AT THE WAVES' MERCY

PORTO RICO  
EVACUATED

Spanish Troops Are Leaving the Island Rapidly

## THE COMMISSION HAS ALMOST COMPLETED ITS LABORS

Washington, Sept. 16—Special—The Porto Rico commission has already practically completed its work, and the evacuation of the island by the Spanish troops is now under way. There was little for the commission to do, as the abandonment of the island by Spain was one of the stipulations of the protocol, and nothing further than to arrange for the immediate transportation of the troops was required. No questions of international law were considered. These will be decided by the general conference at Paris.

## The Cabinet Meeting.

Washington, Sept. 16—Special—A regular cabinet meeting was held today. Secretary Day tendered his resignation and took leave of his colleagues. The cabinet reviewed the final draft of the instructions to the peace commissioners. During the meeting a telegram from Gen. Otis was read in which he stated that affairs in Manila are proceeding smoothly, with no immediate danger of trouble.

## Negotiations Completed.

San Juan, Sept. 16—Special—The joint commission agreed this morning to appoint a dual board composed of Americans and Spaniards to inspect all fortifications with regard to their immediate evacuation. The Spanish officers will formally turn over the fortifications to the Americans. This work will commence tomorrow.

## Holds Sagasta Responsible.

Madrid, Sept. 16—Special—Silvela, the conservative leader, has issued a manifesto calling upon his adherents to use their influence when peace is concluded to place his party in power. Sagasta and his government, Silvela declares, are entirely responsible for the awful loss of Spanish lives, the destruction of the Spanish navy and the surrender of Spanish territory.

## Toral Was Hissed.

Madrid, Sept. 16—Special—Gen. Toral, who surrendered Santiago, arrived at Vigo from Cuba today. A great crowd awaited him, hissing and abusing the conquered general. The demonstration was so violent that he returned to the ship, deciding not to land at Vigo.

## Effect Wearing Off.

Tampa, Fla., Sept. 16—Special—The Mascotte arrived from Havana with information that the effects of the long blockade on the Cuban capital are wearing off. A large number of troops have already been sent back to Spain.

## The Peace Commissioners.

Washington, Sept. 16—Special—Members of the peace commission leave for New York today. Several commissioners will be accompanied by their families.

## Deaths at Camp Wikoff.

Camp Wikoff, Sept. 16—Special—Two deaths are reported this morning. All the regulars are being sent to their stations as fast as possible.

## Miles Is Better.

Washington, Sept. 16—Special—Gen. Miles is much improved today. His speedy recovery is looked for.

Milton, Wis., Sept. 16, 1898.

The Milwaukee Sentinel has the following commendation of S. G. Bond, of this place, who accompanied the convalescent soldiers from Jacksonville last Tuesday:

"Fortunately for the boys there happened to be on the train Mrs. Montgomery, mother of Private Montgomery, of Co. G. and a farmer by the name of Bond, who lives near Milton, and who had gone to Jacksonville to nurse his son, Private Bond, of Co. A. Mrs. Montgomery and Mr. Bond were the means of preventing most intense suffering on the part of some of the convalescents. They were awake day and night, nursing not only their own sons, but every sick soldier who needed their attention. They prepared nourishment for the lads, sent telegrams for them and in every way made the sick comfortable. Both were nearly exhausted when Dr. Evans joined them at Cincinnati."

## CLINTON BABBITT FOR CONGRESS

### DEMOCRATS NAME THEIR FORMER REPRESENTATIVE

The Convention Met at Whitewater Yesterday and Made Short Work Of the Business Before It—There Was Little Strife For the Empty Honor Of a Nomination.

The democratic congressional convention for this (the First) district was held at Whitewater yesterday afternoon.

Dr. J. L. Cleary, of Kenosha, was chosen to preside, and Pitt Cravath, of Whitewater, acted as secretary.

After the committee on credentials had reported an informal ballot for a candidate for congress was taken with the following result:

R. B. Richardson, Racine.....	23
William Smith, Janesville.....	23
T. W. Carney, Racine.....	7
A. O. Wilson, Janesville.....	1
Clinton Babbitt, Beloit.....	1

Total..... 55

William Smith withdrew his name, as he could not undertake the labor and responsibilities of the campaign. The formal ballot was then taken with only Clinton Babbitt and R. B. Richardson as candidates, and the former was nominated by a vote of 41 to 23. The nomination was then made unanimous.

The platform of the democratic state convention was declared to embody the views of the delegates in attendance.

Mr. Babbitt appeared and declared his confidence in the success of the democratic party at the coming election. He promised himself and those present that he would win the seat in the house of representatives now occupied by Henry A. Cooper.

A congressional committee was appointed as follows:

L. T. Baker, Whitewater, chairman.
L. F. Mohr, Racine, secretary.
Green—L. Hodges, Monroe.
La Fayette—M. O'Brien, Shullsburg.
Walworth—W. T. Passage, Delavan.
Brock—H. N. Cronkrite, Clinton.
Elaine—R. B. Richardson, Burlington.

Kenosha—James Gorman, Kenosha.

The convention then adjourned.

### CLEVER ACTORS AND DANCERS

They Composed "The Matinee Girl" Combination of Last Night

"The Gay Matinee Girl" drew a fair sized audience at the Myers Grand last evening. The play was nothing but a framework in which a large number of specialty acts might be set. And the acts were clever indeed, and pleased the audience immensely.

Those fond of dancing had their fill, and it was of every sort by artists of unusual merit singly, in pairs and in squads, and all were free from vulgarity. The costuming was elegant, and the ladies of the company especially appeared to good advantage. Mattie Vickers displayed all her old-time vivacity and her singing and acting were well received. The acting was in all respects very acceptable, while the clever mechanical devices were constantly causing surprises. On the whole the evening's entertainment was a very pleasing one. It was a pure diversion, and it required no mental exertion to take it in. Properly speaking "The Matinee Girl" is not a play but a variety performance, but as such it is first class in its every detail, and all the artists are capable.

### DEMOCRATS PLAN CAMPAIGN

They Will Begin Operations by a Series of Meetings October 1.

A meeting of the democratic candidates on the state ticket was held at the headquarters of the state central committee in Milwaukee yesterday afternoon to map out a plan for conducting the campaign. There were present Chairman George W. Peck and his chief advisor, former Chairman E. C. Wall; Judge H. W. Sawyer, candidate for governor; P. O. Stromme, candidate for secretary of state; P. V. Denster, candidate for lieutenant governor; J. F. Schindler, candidate for insurance commissioner; M. J. Malek, candidate for treasurer; C. G. Wilcox, candidate for railroad commissioner, and B. H. Grace, for attorney general did not attend the meeting.

## BONDS AND STAMPS.

HOW THEY ARE PRINTED AND DISTRIBUTED FROM WASHINGTON.

Although the Fighting Is All Done, the Piper Remains to Be Paid, and Collections, by Means of War Revenues and War Bonds, Come Slowly.

Even the coming of peace has not as yet diminished the activity which the breaking out of the war caused in various government departments in Washington. The printing of revenue stamps keeps about 1,000 men and women con-

SEALING THE BONDS.

stantly employed, and, although the new war bonds have all been printed, the distribution has been by no means completed and will not be for weeks to come.

The reason that so much time has been consumed in delivering the new bonds to the purchasers is that the treasury department has held to its original intention and made this loan strictly a popular one. Former issues of bonds have been handled by big syndicates. In that way the bonds were handed over in a hasty and the distribution made by the firms represented, the speculators incidentally making millions of profit from the transaction.

The war issue, however, has been sold directly to the people, and, while a vast amount of bookkeeping has been made necessary, it is the individual who invests his money that gets the interest and not the capitalist middlemen.

More than 320,000 persons responded to the call for a popular loan. This means that each one of these individuals sent sums of money ranging from \$20 to \$1,000,000 to the treasury department in payment for bonds. The amount of the war loan decided upon was \$200,000,000, but more than seven times that sum was offered. The big bids were rejected and the small ones accepted.

A branch of the office of the register of the treasury was established in the new Washington postoffice, where clerks were engaged in computing interest on deposits and in preparing for the transmission of bonds to successful subscribers.

All the undertaking from the time the mail was received in the opening division until 300,000 envelopes had been prepared by the register's office and addressed cannot be set forth within the limits of this article. Perhaps some idea of the magnitude of the work may be obtained from an understanding of the mere work of delivering the bonds. Sixty people are engaged daily now in folding, placing in envelopes, sealing and delivering the bonds to the express companies. Each envelope is required to be sealed with five wax seals. When the work is done, the sealers will have put the treasury impress in wax on not less than 1,500,000 of these seals.

The interest checks, too, are required to be inclosed with the bonds. Every day now there are delivered to the express companies 6,000 of the bonds. Later on it may be possible to increase the number delivered daily, but just now the delivery amounts to the full responsibility which the express companies care to undertake as well as the capacity of the department for handling the bonds.

If the government should ever again undertake a popular loan, the experience gained during the present one will

PRINTING HIGH DENOMINATION REVENUE STAMPS.

be valuable. The temporary force was recruited outside the classified civil service and mainly of the citizens of Washington. For the most part the clerks are bright young people, many being graduates of the schools of Washington last spring.

The printing of revenue stamps is another branch of work that will not be discontinued for many months. The nominal output of postage stamps from the department is about 10,000,000 a day, and of the war revenue stamps the regular edition is at present about 4,000,000 daily. The department ships the stamps to various points of distribution by registered mail, not by express, as has been stated.

ALFRED R. ROWLEY.

**Arrive from Porto Rico.**  
New York, Sept. 18.—The transport Concho, with Gen. Wilson and staff of the First division, First corps, and the staff of the Sixth corps of Gen. Miles' army, arrived today from Porto Rico.

The ship sailed from Ponce Sept. 8. The troops aboard include a detachment of company C, United States engineers, unattached battalion of artillery; battery A, Missouri volunteer artillery; battery A, Twenty-seventh Indiana volunteer artillery, and battery B, Pennsylvania volunteer artillery.

Suicide of an Indiana Banker.

Delphi, Ind., Sept. 16.—James G. Blythe, ex-cashier of the Citizens' National Bank of this city, and a member of the Columbia club of Indianapolis, committed suicide by hanging in this city Wednesday night. Mr. Blythe came here about ten years ago from Peru and took charge of the Citizens' Bank. He had been in poor health for several years and recently had been afflicted with melancholy. He made an unsuccessful attempt on his life about two weeks ago.

To Fortify St. Johns, N. F.

St. Johns, N. F., Sept. 16.—The British special service vessel Columbine, on duty in these waters for fisheries supervision, has been engaged for a week in surveying the coast line twenty miles north and south of this port in conjunction with parties of naval officers. There is good reason to believe that the surveys have been undertaken with a view to fortifying St. Johns, which, it is reported, is the plan of the British admiralty next spring.

Alger Will Not Resign.

Washington, Sept. 16.—Col. Hecker, of the staff of Secretary Alger, has returned from Detroit, where he accompanied the secretary on his recent trip west. Col. Hecker discusses rather contemptuously the reports that the secretary would resign. The latter is enjoying a rest preparatory to his start next Sunday on a visit to the southern camps. He expects to return to Washington on Sept. 27.

Cadmwallader Will Come East.

Stockton, Cal., Sept. 16.—Charles H. Cadmwallader, alias E. H. Wilber, charged with embezzeling funds of the Union City Bank of Indiana, was arrested here last Saturday on instructions received from the Indiana officials. Cadmwallader says he will go east without the formality of being extradited.

Submits It to Victoria.

Paris, Sept. 16.—The Argentine minister here says that the boundary dispute between Chili and Argentina will be submitted to the arbitration of Queen Victoria.

Russia Seeks a Loan.

Berlin, Sept. 16.—The Russian minister of finance, M. De Witte, has arrived here for the purpose of effecting a new Russian loan with German bankers.

Will Turn Out the French.

London, Sept. 16.—The correspondent of the Daily Telegraph, in a dispatch dated at Assouan, claims to know that the French flag is flying at Fashoda. He adds that Gen. Sir Herbert Kitchener, who is advancing on that place with three gunboats, 100 Highlanders, several Maxim guns, and 1,200 Egyptian and Soudanese troops, expects to hoist the British and Egyptian flags there this week under all circumstances.

THIS DAY IN HISTORY.

1801—Gabriel Fahrenheit, noted for thermometers, died in Amsterdam; born 1680.

1812—Moscow set on fire by the Russian governor; over 30,000 buildings destroyed; loss, \$150,000,000. The fire lasted many days. Napoleon's soldiers vainly attempted to suppress the flames. The French began to leave Oct. 10, on that march which destroyed them faster than great battles. This disaster is considered the beginning of the end for Napoleon. His army never recovered from it.

1804—Captain John Eanning Speke, the famous African explorer, accidentally killed by the discharge of his fowling piece while hunting at Neston Park, England.

1800—The palace of the Alhambra, in Granada, Spain, damaged by fire to the extent of \$200,000.

1806—8,000,000 acres opened to settlers in the Cherokee strip.

McKINLEY'S SAGACITY.

William E. Curtis gives another instance where President McKinley's independence was of value to the people of the United States. In his dispatch to The Chicago Record, Mr. Curtis says:

"When Mr. Polo, the Spanish minister, left Washington he placed the affairs of the legation jointly in charge of the French ambassador and the Austrian minister. When the department of state was notified of this fact Secretary Day, by instruction of the president, informed the French and Austrian governments that a joint representation of two nations could not be recognized; that he could not allow the responsibility to be divided; that he would be pleased to receive either the French ambassador or the Austrian minister regarding any matter that concerned Spain, but he could not receive them both. The objections of the United States were communicated to the Spanish government and the French ambassador was instructed to act as the envoy of Spain."

"There was no reason at the time why both of these diplomats should not be recognized, but the president with wise precaution, determined that he would not permit any joint action on the part of the European powers in favor of Spain or any arrangement that had the appearance of a coalition as he feared that a double representation, which was entirely unnecessary, might be intended or interpreted as an entering wedge."

SOLDIERS KEEP THE GUNS.

The soldiers who fought in the war are naturally anxious to retain the rifle and equipment used in the defense of the flag. They will be allowed to do so, as the following Washington dispatch shows:

"Permission has been granted by the secretary of war to the volunteer troops who served in the army during the war with Spain to retain their arms and equipments. These articles will not be presented by the government, but each man will be given the privilege of purchasing his rifle, knapsack, canteen, cartridge belt, and, in fact, everything used by him during the war. One month's pay will cover the total expense, the Krug-Jorgensen rifle costing \$10 and the rest of the equipment about \$3, and the last month's pay will be accepted in payment. As each man will be granted a furlough, this will practically be a gift from the government, which will enable every soldier to hand down to posterity the weapon he used in defense of the honor of his country."

"Reports of carelessness with the government's property have reached the war department, and every soldier will be compelled to present a certificate of non-indebtedness from a paymaster before he receives his discharge. If any of the government's property is not accounted for the person who is responsible for it will be docked before he is discharged."

If Miss Dora Cox, of Oklahoma, should meet Mr. Jack Hess, formerly of Janesville, but now of the country at large, it would probably result in a case of love at first sight. Dora was a frolicsome miss, and one day she stole a horse. As the result she was arrested and put in jail at Kingfisher. She wept and wept when the iron

doors swung shut, and a sympathetic turnkey said it was a shame to abuse a frail girl in that manner. When the turnkey awoke in the morning, however, Dora was gone. She twisted the locks in her cell all out of shape, and going into the waiting room with a case knife took the locks off the outer door and vanquished.

Theories often fall short when put into practice. Dispatches to the newspapers show another evidence of this fact, in the case of Mayor Quincey, of Boston, who invested \$30,000 in a municipal printing office, and over \$10,000 in betterments, and then undertook to show how the corporation could save money. According to the first balance sheet one department which used to spend \$2,518 a year for printing and stationery now spends \$8,276 in the same time. The profitability of this sort of reform depends upon the point of view.

St. Louis Globe-Democrat.—The republican majority in Maine is many thousands beyond the average previous to the great landslide against the democrats in 1864. There has been no recovery from that emphatic verdict of the people. Maine's republican majority is again overwhelming.

The announcement has been made, authoritatively, that no more troops will be mustered out, as Uncle Sam needs the services of all the men who now wear the blue.

Word comes from Washington to the effect that the Fourth Wisconsin regiment will be sent to Cuba with General Fitz Hugh Lee.

## WEDDED IN HARMONY TOWN

Mary Isabel Clark and William S. Haight United in the Holy Bonds.

Wednesday evening, September 14, at the home of Robert Clark in Harmony, Miss Mary Isabel Clark and William S. Haight were united in marriage. Rev. S. G. Huey of the Rock Prairie United Presbyterian church, officiated. The ceremony was performed in the presence of the immediate families of the contracting parties, among whom was Fred Haight, of Chicago. Congratulations were extended, after which the guests sat down to a sumptuous wedding dinner. Mr. and Mrs. Haight were the recipients of a number of elegant presents.

The bride is the eldest daughter of Mr. and Mrs. Robert Clark, of Harmony, and is a young lady of culture and refinement and is highly esteemed by all who know her. The groom is the third son of John Haight of Johnson, and is one of the most well to do young farmers of the community and is well and favorably known.

The next morning they departed for an extended wedding trip visiting Chicago, Niagara Falls, Boston and other cities of the east. On their return they will locate on a farm in Johnston, whither they will take with them the best wishes of many friends.

## SETTLING DRUMMOND ESTATE

Sons Are Absolved From the Payment of Two Notes For \$1,000.

In the county court yesterday in the case of the estate of the late William Drummond the court found that the two notes of \$1,000 each, it was alleged that James and David Drummond owed the estate, could not be charged to them personally. The case has been hanging fire for some time past, other heirs claiming that the notes were not paid by them. Prior to the death of Mr. Drummond James and David, his sons, borrowed \$1000 each, and in spite of what they said regarding their payment other heirs tried to make them settle the notes.

E. D. McGowan appeared for James and David Drummond, and Fathers, Jeffers, Field & Mount for the claimants.

## BASEBALL REPORT.

Games Played Yesterday in the Various Leagues.

While Chicago was prevented from playing at all, most of the other leagues clubs got away with two games. Boston and Baltimore moved ahead together, but it was a disastrous day for Cincinnati. The Reds tumbled down badly in the first game and could not make up in the second, although they fought harder. Pittsburgh did Chicago a slight service by breaking even with New York, and Washington did likewise with Cleveland. Louisville's win from Brooklyn was almost a foregone conclusion. Scores:

At Boston—Boston, 4; St. Louis, 1. Boston, 16; St. Louis, 0.

At Baltimore—Baltimore, 15; Cincinnati, 1. Baltimore, 6; Cincinnati, 3.

At New York—New York, 7; Pittsburgh, 3. Pittsburgh, 6; New York, 1.

At Washington—Washington, 12; Cleveland, 7. Cleveland, 12; Washington, 10.

At Brooklyn—Louisville, 2; Brooklyn, 0.

Chicago at Philadelphia—Rain.

Games today: Chicago at Philadelphia, Pittsburgh at New York, Cleveland at Washington, Cincinnati at Baltimore. Louisville at Brooklyn, St. Louis at Boston.

## Western League.

At St. Joseph—Indianapolis, 9; St. Joseph, 8.

At Kansas City—Kansas City, 6. Milwaukee, 4.

At Minneapolis—Detroit, 7; Minneapolis, 2.

At St. Paul—St. Paul, 3; Columbus, 1.

## Interstate League.

At Newcastle—Fort Wayne, 4; Newcastle, 3.

At Youngstown—Youngstown, 1; Mansfield, 0.

At Dayton—Dayton-Toledo; rain.

## SILVER THE ISSUE.

Gov. Tanner Opens Political Campaign

## In Illinois.

Springfield, Ill., Sept. 16.—In the speech which Gov. John R. Tanner made yesterday afternoon when he opened the republican state campaign at Golconda, Pope county, he placed the silver question as the first and most serious issue to be discussed in this campaign. He declared in favor of territorial acquisition, but he put the greatest stress upon silver.

The governor discussed the administration of state finances in general and the financial management of state institutions at length and in detail. At the end he charged former Governor Altgeld with personal knowledge of corruption and mismanagement and with responsibility for them.

Cubans Want Independence. Havana, Sept. 16.—The predominant feature of the situation is the feverish and widespread agitation of the Cubans in favor of the absolute independence of the island at all costs. Manifestos are being circulated inviting the cooperation of Spanish residents and merchants to this end and pointing out that either annexation or an American protectorate would mean death to all trade with Spain in a couple of years. Gen. Maximo Gomez, who only a fortnight ago gave expression to extremely moderate views, counseling harmony and patience, now expresses himself as strongly in favor of "absolute independence or nothing."

Agreed to British Demands.

Candia, Island of Crete, Sept. 16.—An aid-de-camp of Djedval Pasha boarded the British flagship last evening and announced that he had an important communication for the admiral. He said that thirty-nine houses from which the British troops had been fired upon had been demolished, and that 113 of the ringleaders of the disturbances had been arrested. He added that the embassies of the powers at Constantinople, in deference to the request of the sultan, had agreed that the prisoners be tried by an international commission.

## CAMPAINING IN PORTO RICO

### EXPERIENCE OF DEE W. BUTLER IN THE ISLAND

The Spaniards Made But a Feeble Resistance to the American Advance — Were Greatly Rejoiced When News of the Declaration of Peace Reached Them

Dee W. Butler, of Oconto, who is now visiting his parents, Mr. and Mrs. George Butler, of 288 South Main street, gives the Gazette an interesting account of his experiences on the island of Porto Rico as a member of the Second Wisconsin Regiment. As bugler in Co. M, Oconto, he left the city of Charleston, S. C., on the transport La Grande Duchesse on the morning of July 20. Aboard were 1,300 men, all in the best of health, and anxious to land on the island and commence operations against the Spaniards. On board there were fairly good accommodations for all, and as for the meals, they were composed principally of coffee, with a few side dishes.

#### The Landing in Porto Rico.

"After a tiresome ten days' journey on the water," said Mr. Butler this morning, "we landed at the city of Ponce, which is a place of about 35,000 population. The buildings are poorly constructed and unlike those in this country. The streets are narrow, while the sidewalks in many places are not more than a foot wide. The people are copper colored and all walk in the middle of the streets. Spanish is about the only language spoken. Most of the inhabitants make their living by working on near-by plantations that are owned by the rich Spaniards, and on which is grown considerable leaf tobacco and sugar. The wages paid are small, and strict rules govern the help. The average citizen of Ponce is poorly clad, while the small children go about the streets at all times of the day stark naked.

#### The Capture of Coamo

"After a short stay at Ponce we were ordered into the country, and were soon aware of the fact that we were to attack a Spanish town by the name of Coamo, which proved to be a village of about 600 people. A block house that sheltered about 600 Spaniards stood guard over the place and as we advanced the Spaniards lost no time in sending a few Mauser bullets into our lines. Our artillery had by this time opened fire on their block house, which was the main point of attack. The battle took place on August 8, and after several hours' firing the block house went up in smoke and then the Spaniards within made their way into Coamo. During the fight the Second Wisconsin was on the right of the artillery, and the left was the Third Wisconsin. The brave Sixteenth Pennsylvania boys were on the opposite side of the block house, and they were sending hot stuff into the Spaniards all the time. All about Coamo bridges had been blown up, and on all sides the Spaniards had made traveling uncomfortable. For our ration wagons to follow us was almost out of the question, and for this reason we were obliged to go without food several hours at a time when we were actually suffering for the want of a bite to eat.

"When the firing on Coamo was at its height the Spaniards sent up the white flag. But few of our men were wounded or killed, while many of the enemy suffered death. After taking 162 men prisoners we marched them back to Ponce, where they were confined in prison with guards over them. The prisoners' faces beamed with smiles at the thought that they were prisoners. They had all the fighting that they cared for and would have surrendered long ago had it not been for their officers.

#### Attack On Abonita

"After a two days' stay at Ponce we received orders to march inland to attack the Spanish post known as Abonita, which proved to be a strong military station located on the top of one of the mountains. When we got within seeing distance of this post we were obliged to march through narrow mountain roads that afterwards proved to be undermined. At one time it looked as though the Spaniards had the drop on us, for we did not know the country and it seems as though the officers were equally as ignorant of our surroundings. When within seeing distance of the post we could plainly observe the Spaniards working like bees. They were well aware of our coming and for several days and weeks had been planning on giving us a warm reception consisting mainly of Mauser bullets. After all preparations had been made to move a messenger on horseback arrived with important documents. That message proved to be from President McKinley, and conveyed to us our first information that peace had been declared. It arrived just in the nick of time, for it undoubtedly saved many American and Spanish lives.

"Soon afterwards five Spanish officers with a white flag flying came into our ranks from the post of Abonita. They were trembling with fear, and at once made themselves understood, saying that they wished to see the head officers. When they returned they were all smiles, and were smoking and having a happy time. They had received the good news that peace had been declared. We then returned to Ponce, and sailed Sept. 1, landing in Jersey City on Sept. 8."

## BAPTISTS HAVE AN ANNIVERSARY

### CHURCH DAY WAS CELEBRATED WITH ENTHUSIASM

A Good Supper and Pleasing Musical Entertainment Given—Reports Of The Officers Of The Society Show Satisfactory Progress During the Year—Election Held.

The first church day celebration of the Baptists of Janesville was held last evening. At six o'clock there was an informal gathering of members of the church and congregation in the church parlors where there was a general interchange of greetings and congratulations upon the growth of the cause in this city. Merchants F. G. Burpee, M. O. Mount, Louise Bowerman, George N. Hubbard, Mary Lawrence and O. L. Richards had charge of the affair, and made everyone welcome at home.

Supper was served by the ladies. The collation was an appetizing one, daintily served by fair waiters who exerted themselves to please. All present received a souvenir badge from Miss Lester, which they wore during the evening.

In the church parlors there were services appropriate to the occasion. A meeting of the board of trustees was held, at which Rev. A. C. Kempton was chairman and B. F. Dunwidie secretary.

A solo on the organ was rendered by Mrs. Clarence L. Clark, after which the junior choir rendered in a pleasing manner "Scatter the Sunshine."

Reports of Progress. Reports from the church officers were received.

Washington Kelly, of the board of deacons, read a humorous paper on deacons and their value to the church, especially in the capacity of the scapegoat on whom all the blame for failures is laid.

From the board of trustees A. E. Hall returned thanks to those who had so willingly helped in financial matters, and Mrs. W. E. Clinton read the treasurer's report, showing the total receipts for the year to be \$3,464.02; the expenditures, \$3,343.68, leaving a balance in the treasury of \$121.24. During the year a standing debt of nearly \$500 has been paid, many expensive improvements have been made, both in the church and the parsonage, and the close of the year finds the church free from debt.

Other reports given were the clerk's report, by Dr. H. A. Palmer; Missionary circle, Miss Mary Crosby; board of ushers, W. E. Clinton; Ladies Aid society, Mrs. J. A. Whiffen; Church Echoes, C. S. Cleland; Y. P. S. C. E., Miss Elizabeth Palmer; Junior Endeavor society, Miss Pauline Gates; Sunday School, B. F. Dunwiddie; Junior department, Mrs. A. P. Lovejoy; Sherman Sunday school, Mrs. George Sherman. Among the many improvements during the year that of relighting the church is one of the most valuable. It was the work of the Ladies' Aid society.

Officers Elected.

An original hymn, composed for the occasion by Mrs. A. C. Kempton, was sung, after which officers for the ensuing year were elected as follows:

Trustees—G. S. Cleland, to succeed himself; C. E. Bowles, to succeed W. E. Rose.

Ushers—W. E. Clinton, A. C. Campbell, G. W. Garlock, J. T. Fitchett, W. O. Wilcox, Walter Clark, Ralph Grove, C. S. Cleland.

Additional Deacons—I. A. Whiffen, W. H. Rose.

Church Clerk—Walter Clark.

Sunday School Superintendent—B. F. Dunwiddie.

Assistants—W. E. Clinton, J. T. Fitchett.

Librarian—Miss Phoebe Lamphier.

Secretary and Treasurer—A. C. Campbell.

Committee on New Members—W. Kelly, A. F. Hall, Mrs. A. C. Campbell, Miss A. Harkimer, I. A. Whiffen, H. A. Palmer.

Committee on Finance—J. C. Fredendall, C. S. Cleland, Mrs. M. Lawrence, Mrs. A. C. Campbell, Mrs. C. D. Child, Miss Flora Dunwiddie, Miss Marie Snyder.

Committee on Baptismal—Miss Ella Pratt, ladies' assistant; W. H. Rose, G. H. Garlock, gentlemen's assistants.

Committee on Relief of Poor—Mrs. I. A. Whiffen, Mrs. G. A. Grossman, Mrs. G. W. Lester, Mrs. Ed. Kelly, Mrs. M. Honeysett.

Church Benefice—W. Kelly, N. Dearborn, C. H. Smith, I. A. Whiffen, H. A. Palmer.

The decorations of the church were very handsome, and were arranged by the deft hands of the ladies of the Aid society.

ATTEND EASTERN STAR LODGE

Janesville Members At The Meeting of the State Lodge

Mesdames C. A. Sanborn, L. M. Thomas, J. H. Dower and Miss Minnie Burroughs left town this morning for Baraboo, where they will attend today the annual convention of the Order of the Eastern Star. A large number of delegates from all parts of the state were in attendance and the meeting promises to be an interesting one. The convention was in session this afternoon and will close this evening.

## NEW STORE IS FULL OF LIFE WARM BALL GAME AT ATHLETIC PARK

The "Wide Awake," No. 53 West Milwaukee Street, Promises To Merit Its Name.

Starts Out with a Full Stock of Fresh Goods at Very Attractive Prices.

Curiosity grows in the minds of most folks when the show windows of a vacant store are covered with whitening, and dry loads of goods are brought to the front door for unpacking.

The store at 53 W. Milwaukee street, formerly occupied by the Bee Hive, and which has been empty for some time past, has been showing signs of business activity for the last two or three weeks. Important and extensive improvements have been made therein. A representative of the Gazette who had been anxious to find out what all this activity meant called today and was surprised to find the store filled with goods and all ready to be thrown open to the public tomorrow, Saturday.

The place is to be known as the Wide Awake and will merit its name.

W. W. Emmons & Co., formerly of Chicago, are proprietors.

Mr. Emmons, who will have the management of the store, is a man of large experience. For some time past he has been buyer and manager for a large State street store.

The impression as one enters the door of the new store is most pleasing. On the right and extending the entire length of the store are shelves filled with glassware, imported and domestic china, toilet sets, chamber sets, decorative ware, etc.

"The crockery department," said Mr. Emmons, "will be one of the main features of the store. We will do all of our importing and with the knowledge of where to buy the nicest lines, the assortment will always be complete in every way."

The rear of the store contains tables covered with lamps of every description and along the entire left side of the store are shelves with men's wool clothes such as overalls, shirts, pants, etc. Underwear, hosiery, drygoods notions, ribbons etc., also find a place here.

The middle of the store is given up to 5 and 10 cent specialties. Everything imaginable is to be found on these counters. There will be but few household articles that the average mortal can think of not to be found in this store and toilet articles, silverware, tinware, enamel ware, books, jewelry, etc., are seen in great abundance.

"We are going to give people greater values for their money than they have ever had before," said Mr. Emmons. "We shall buy in large quantities and will be satisfied with a very small margin for our profit. The store will make its bow to Janesville buyers tomorrow morning and from that time on we intend that people shall know that the establishment was rightly named the Wide Awake."

## EDGERTON AND WAUPUN TEAMS PLAYED

Two Hundred Dollar Purse Was At Stake—Several Bets Were Made By Interested Parties—Game and Perfect Day Draws Many Interested Spectators For Miles Around.

At Athletic Park this afternoon the largest crowd of the season assembled to see what proved to be the hardest fought and most interesting base ball game of the season. The Edgerton and the Waupun nines which have been pulling hair with each other for some time past, were the contesting teams, and all present who saw the game have nothing to regret.

Early on the Ground.

Yesterday morning the Waupun team arrived in the city and decided to spend their time here at the Grand Hotel and await the coming of the Edgerton boys.

## LATE NEWS BY TELEGRAPH...

## CURRENCY DEBATE ENDED.

Advocates of Paper Money Present Arguments.

## ADDRESS BY GEN. WARNER.

Financial Discussion Concludes with a Comparison of the Merits of Bank Notes and Government Mint Bills—Mr. Boies' Plan.

Omaha, Neb., Sept. 16.—The third and last day of the national currency convention began with a paper in support of an unlimited issue of irredeemable currency by the government by Gen. A. J. Warner, president of the American Bimetallic Union. He said in part:

"The measure of the effect of paper money on prices and on other money does not depend upon whether or not it is covered by coin, dollar for dollar, any more than upon the color or texture of the fiber of the paper on which the insignia of money is stamped, but entirely on the quantity of such money put into circulation. The principle is the same whether applied to paper money or to gold and silver coin or to gold alone."

"The effect, no doubt, of the restoration of silver to unrestricted mintage would lower the value of all money, including gold, as would be evident by a general rise of prices. On the other hand, should the supply of gold for money be cut off by reduced production and increased demand for it for the arts, or for other non-monetary purposes, while the world's need for money continued the same and no other money was substituted for the gold, the value of gold would be increased and prices would fall. This is exactly what has taken place the last thirty years. By the demonetization of silver and the extension of the gold standard to countries theretofore using little or no gold for money the demand for gold relatively to its supply has largely increased and its value has been correspondingly augmented."

"But the point I wish especially to emphasize here is this: That the effect of the increase or decrease of paper money to the extent that it takes the place of or adds to metallic money, or to the extent that it does the work of metallic money, has the same effect on general prices and on gold itself, or on so-called standard money, as would so much additional gold obtained from altogether new sources and put into circulation."

Congressman Charles N. Fowler of New Jersey replied to Gen. Warner and took the ground that the silver dollar was not money, but currency.

"It is a check of the government for a dollar in gold coin, even as the greenback is; or, more properly, it is a government check to the right to have 23.22 grains of fine gold. As the government stands ready, in order to maintain the parity of our silver coins with our gold coins, to exchange the one for the other, it is a silver check for the face in gold."

Mr. Fowler then proceeded to speak in support of bank notes as a medium of domestic exchange and in opposition to the claim that banks would withhold their notes for the purpose of making money scarce and forcing up the rate of interest.

Ex-Gov. Boies, of Iowa, presented "A Plan for the Establishment of a Bimetallic Standard That Will Accomplish What Its Name Indicates and Furnish a Basis for a National Paper Currency as Sound as Money Can Be Made."

"To secure this," he said, "let congress provide:

"1. For unlimited deposits in the treasury of gold and silver bullion of the value of \$10 or any multiple thereof in exchange for treasury notes of denominations not less than \$10, expressing in dollars the market value in the great markets of the world, of the bullion deposited on the day of deposit. Redeemable on demand (subject to three days' grace after deposit in the treasury for that purpose), in bullion of either metal at the government's option, at the market price in the world's markets on the day of redemption, and for the reissue of redeemed notes without deposit of further bullion except as hereinafter suggested.

"2. Make it the duty of the treasurer when notes are deposited for redemption to forthwith purchase in the open market and cover into the treasury the quantity of bullion required for their redemption.

"3. Set aside \$50,000,000 in value of silver bullion now in the treasury and \$50,000,000 in gold for redemption of existing United States and treasury notes. Provide for their redemption in bullion of either metal at the government's option at market value, or coin of both metals in equal parts if coin is demanded, and for the daily purchase by the treasurer of bullion equal to that required for such redemptions, and continue the reissue of these notes as fast as redeemed. Release for general use \$50,000,000 of the present gold reserve.

"4. Require the immediate issue of treasury notes, their redemption, reissue and the purchase of bullion to supply the place of that used in redemption, as suggested in the first paragraph hereof, up to the limit of the present market value of all gold and silver bullion owned by the government, and not otherwise provided for immediate use.

"5. Continue the use of gold and silver certificates of denominations not exceeding \$10, and coinage of govern-

ment account of gold and silver coin at present ratio, and issue certificates therefor up to the limit that such coin and certificates will freely circulate on a parity with all other money. Make it the duty of the treasurer (if at any time necessary to maintain such circulation, but not otherwise) to redeem with treasury notes, payable in bullion at market value, as before suggested, all certificates and coin presented for redemption, and thereupon transfer the coin released or redeemed to the bullion account in the treasury, to be retained for the redemption of treasury notes, and provide for the retirement of all notes so issued in excess of the bullion value of coin redeemed.

"6. In all cases of emergency, where a loan by the government would otherwise be necessary, require the treasurer, before issuing bonds, to issue treasury notes redeemable in bullion, as before suggested, up to three times the market value of all bullion in the treasury, originally deposited in exchange for notes, and provide for the retirement of such emergency notes as fast as the revenues of the government will permit.

"7. Make all United States currency—gold, silver and paper—other than fractional silver, nickel and copper coin, unlimited and unqualified legal tender.

"8. Require national banks to maintain their reserve in the treasury for the redemption of their own notes in gold and silver bullion instead of locking up United States notes to be first exchanged for bank notes and then redeemed with gold, as now so cunningly contrived by law."

H. P. Robinson of Chicago, editor of the Railway Age, spoke on the subject "The Interest of Railway Men in the Gold Standard." He said in part: "It is commonly claimed that the free coining of silver, if it hurts anybody, would hurt only the capitalist and the gold bug. If the free coining of silver would reduce the railway earnings the men who would suffer would not be the capitalists or the gold bugs, but the laboring man. While, therefore, the interest of capital in the gold standard is large, the interest of labor is incomparably larger. Labor would suffer most severely by any tampering with the currency."

Henry G. Miller of Chicago opposed the gold standard in a vigorous address. Mr. Miller said among other things: "Money fixes the price of commodities and pays for them. It fixes the price of labor and pays for it. A high money standard means low prices for commodities and a low price for labor. Our experience under the gold standard has been marked for falling prices, the cutting down of wages paid for labor and the demoralization of industries."

James T. Mc Cleary, member of congress from Minnesota, pleaded for a lower and a uniform rate of interest. The speaker referred to the conditions in France and Scotland and Canada to show that these things were possible, and said that a commercial rate of interest approximating 2 per cent was for this nation entirely practicable within the comparatively near future.

William C. Cornwell, president of the City bank of Buffalo, N. Y., spoke in advocacy of bank notes as currency.

## OFFERS NO HOPE TO SPAIN.

Paris Paper Says Europe Will Not Interfere.

## DISPOSAL OF THE PHILIPPINES.

Leading French Journal Takes It for Granted That We Shall Not Retain the Islands—Uprising Threatened in Spain.

Paris, Sept. 16.—Europe's persistence to see in America's desire for expansion something blameworthy almost suggests that there exists fear or jealousy of the United States.

This is one of the most curious aspects of the old world's present judgment of the United States. This spirit is reflected in an article on the Philippines in the Debats, which admits the present tendency in America is toward complete annexation. The paper says that if the United States decides to do it no nation will interfere to aid Spain, and adds: "But the United States has a reputation to preserve and it would appear as if a demand for the incorporation of all the Philippines would be a violation of the protocol."

## Uprising Threatened in Spain.

Madrid, Sept. 16.—The reason given for Premier Sagasta's sudden proroguing of the cortes is that the deputies and senators, civilians and officers were indulging in reciprocal insults. Papers friendly to the army are furious and everything indicates an early uprising. Several papers oppose the nomination of Paris commissioners, declaring they prefer America to take whatever she likes without signing any treaty.

## Many Spanish Soldiers Die.

Madrid, Sept. 16.—On the last Santiago steamer bringing Spanish soldiers there were 110 deaths.

## KILLED BY THE HURRICANE.

More Than 150 Persons Believed to Have Perished in Barbadoes.

Trinidad, British West Indies, Sept. 16.—A steamer which has arrived here from Barbadoes reports that fearful havoc was caused there by the hurricane Saturday night. The destruction of property was immense. It is believed that more than 150 persons were killed throughout the island, and numbers were rendered homeless and destitute.

Bridgetown, the capital of the island of Barbadoes, is a scene of desolation and ruin. Demolished or roofless houses are to be seen on every side, and hardly a tree is standing. Particulars from the country are still wanting.

St. Vincent, British West Indies, Sept. 16.—The official reports reduce the number of deaths here during the hurricane. It was at first estimated that 300 lives were lost, but it is now believed the number is considerably smaller. The exact figures are not obtainable.

William C. Cornwell, president of the City bank of Buffalo, N. Y., spoke in advocacy of bank notes as currency.

**Turkey's Attitude in Crete.**

Queenstown, Sept. 16.—J. B. Angel, former president of the University of Michigan at Ann Arbor, returning minister of the United States from the court of Abdul of Turkey, in discussing the Crete situation said: "Turkey will hold on to Crete as long as she can, and the sultan's efforts in that direction are warmly approved by the Turkish people. Djevat Pasha, his representative in Crete, is a man of much ability and will carry out the sultan's policy at all costs. The sultan's own prestige has been enormously enhanced in Turkey by his victory over Greece, and he will be supported by them in any policy he undertakes."

Mr. A. F. Lee, of 51 Sharon St., carpenter, says:

"I can most strongly recommend Doan's Kidney Pills for kidney complaint. I think mine was quite serious, the only where I served in the D. & W. Inf. for four years. It troubled me a great deal, many days I could hardly keep at my work, and by rights should have stayed at home and doctored. It was sold him that my back did not seize, and I have been completely laid up for three or four days at a stretch. When stooping or lifting sharp twinges sometimes the kidneys were seized, and a numbness from those organs were too frequent and uncomfortable by name. I used all kinds of remedies but none gave permanent relief. Obtaining Doan's Kidney Pills at the Janesville Drug Co., I took them, and after the first three or four doses a noticeable change was brought about. The treatment I was in good condition and am now well. I do not feel anything of the trouble now and consequently take pleasure in recommending the remedy which did so much for me."

## WATSON'S SHIPS SCATTERED.

Commodore Ordered to Mare Island—Disposition of Warships.

New York, Sept. 16.—A dispatch to the Herald from Washington says: Secretary Long has issued orders disbanding the eastern squadron and assigning its commander, Commodore J. C. Watson, to duty as commandant of the Mare Island navy yard. This squadron was formed to go to Spain but the quick termination of hostilities rendered the movement unnecessary.

For the present the department will retain the men-of-war now in southern Cuban waters in that section, and Capt. C. F. Goodrich, as senior officer, will have command. Capt. Goodrich is on the Newark. Besides this cruiser there are at or near Guantanamo the Host, the Scorpion and the Leonidas. The Nashville is at Gibara.

Secretary Long will re-establish the European and South Atlantic stations as soon as the treaty of peace is signed. It is also his intention to lay up several vessels in reserve.

Orders putting the ram Katahdin out of commission were issued yesterday. She will be placed in reserve, with the Columbia and Minneapolis, at League Island. All of the armor-clads will be kept in commission and will be distributed among the several stations when the peace treaty is signed.

The department has determined to place at least one armor-clad vessel on the European station. The administration desires to let Europe see the character of the vessels of the United States navy, and an excellent squadron will be formed and ordered abroad.

Secretary Long has directed that the battleship which is to be built by the Union iron works, San Francisco, Cal., shall be named the Ohio. The Cramps will build the Maine and the Newport News company the Missouri.

# Over One-Half of Janesville PEOPLE USE BREAKFAST FOODS.

Some use one kind, some another, and but few of them eat a kind we do not sell. We carry a very large line of farinaceous goods. There is not a good article on the market that is not listed in our stock. We make this department complete in every way and buy the goods in large enough quantities to enable us to make special prices. Your cash talks louder on all grocery lines at this store than anywhere else.
